EVDI MEDICAL IMAGING

# EVDI MEDICAL IMAGING OVERVIEW

## History

EVDI Medical Imaging is a radiologist-owned company providing x-ray, ultrasound, mammography, CT, MRI, and additional healthcare services. EVDI employs more than 40 highly specialized, board-certified radiologists throughout their seven locations and approximately 300 employees total, including support and administration staff. Our outpatient imaging centers offer both convenience and comprehensive, reliable service with centralized scheduling of exams and prompt film and report delivery.

The roots of EVDI date back to 1965 with the creation of Associated Radiologists, Ltd. (ARL). The first outpatient-imaging center was opened by ARL in Mesa, Ariz. in 1967 before partnering with EVDI Medical Imaging, established in 1989, to provide professional radiology services to all EVDI centers.

As a leading medical imaging company, EVDI is equipped with the latest cutting-edge technology. EVDI fosters supportive, attentive and respectful relations between physician, patient and radiologist, and works to provide physicians with answers that help them diagnose and treat. EVDI takes pride in being a valued resource and providing accurate, trustworthy reports in a caring and compassionate environment. It is our goal to be the provider on choice in each valley community we serve and EVDI is able to achieve this preferred status by offering state-of-the art technology and highly trained radiologists, combined with a relaxing environment and caring staff.

## Community and Professional Involvement

EVDI's commitment to patients extends outside the office and into the community, and we routinely sponsor events such as the Susan G. Komen Phoenix Race for the Cure, the American Cancer Society's Climb to Conquer Cancer and the Lymphoma Research Foundation's Lymphomathon.

In addition to our community work, EVDI radiologists and staff members belong to a variety of prominent associations including: the American College of Radiology, the American Osteopathic College of Radiology, the Radiological Society of North America, the American Society of Radiologic Technologists, the Radiology Business Management Association, The Associate for Medical Imaging Management, the American Registry for Registered Diagnostic Sonography, and the Society of Nuclear Medicine.
